

# Henry Kaahwa

Product designer with 4 years of experience in User Experience Design, Research and User Interface Design. With a background in Computer Science and Graphics Design, I enjoy designing with data.

## EXPERIENCE

### SafeBoda, Kampala, Uganda — *Product Designer*

AUG 2019 - AUG 2020

Build product features and improvements for mobile apps (driver and passenger) and in-house web portal. Redesign the Design System utilized by both the design and engineering team. Gather user requirements, user research, competitive analysis, storyboards, user flows, wireframes, translate and execute abstract concepts into simple User Interfaces.

Together with the design team, we volunteered in creating and coordinating a Design Community to organize design meetups and workshops.

### Extentia Information Technology, Pune, India — *UX/UI Designer Intern*

SEPT 2018 - FEB 2019

Responsible for UI design of mobile and web apps. Working along with UX designers and UI leads creating prototypes. Translating abstract concepts into simple and elegant design solutions. Collaborating actively with the engineers as part of a multi-disciplinary team to design and develop prototypes for IoT presentations and workshops.

### Bank Of Uganda, Kampala, UG — *Application Developer Intern*

JUN 2017 - JUL 2017

Requirements gathering and analysis, creating elegant User Experiences and User Interface mockups. Software design & development. Implementation of the design solutions under the direction of senior managers. Conducting quality assurance tests and documenting reports of the developed software.

### FMY Solutions, Kampala, UG — *Graphics Designer, UI/UX Designer*

JUN 2016 - JUN 2018

Responsible for the design, improvement of client products and analysing working concepts launched by competitors of similar products to match quality.

### Gagawala Graphics LTD, Kampala, UG — *Creative Artist / Graphics Designer*

NOV 2014 - JUL 2017

Bringing clear design ideas, concepts, creative assets to life, and passion for brand building campaigns. Designing and producing digital marketing assets. Having a strong point of view on branding and marketing industry. Having strong working relationships with clients. Reviewing design errors before printing or publishing.
